

Foot print review

@ Bid (@ ask

Right = how many buys hit
sell order limits

left = how many sells hit buy
order limits.

◦ If right side >> left side
aggressive buying occurred

◦ If left side >> right side
aggressive selling occurred

Icebergs:

left foot print correlates to left
of Dom

Right Foot print correlates to
right of Dom

low dom #s but high #s in
cells? = Iceberg

Bookmap:

Real vs fake liquidity

fake: Dom order spoofs →
appear as fading to black/blue
lines suddenly on heat map

real: what actually traded,
shown on the footprint

(also shown on time of sale)
???
